Engineering a Compiler by Keith D. Cooper - Goodreads

Compilers are computer programs that translate a

Acces PDF Engineering A Compiler

program written in one language into a program written in another language. At the same time, a compiler is a large software system, with many internal components and algorithms and complex interactions between them.

COMPILER

CONSTRUCTION IS

ENGINEERING A typical

compiler has a series

of passes that,

together, translate

code from some source

language into some

target language. Along

the way, the compiler

Acces PDF Engineering A Compiler

uses dozens of algorithms and data structures. The compiler writer must select, for each step in the process, an appropriate solution.
