International Economics - GBV

Heterodox economics is any economic thought or theory that contrasts with orthodox schools of economic thought, or that may be beyond neoclassical economics. These include institutional, evolutionary, feminist, social, post-Keynesian, ecological, Georgist, Austrian, Marxian, socialist and anarchist economics, among others. Economics may be called orthodox or conventional economics by its critics. Alternatively, mainstream economics deals with the "rationality-individualism-equilibrium ...

Heterodox economics - Wikipedia

This book explores the foundations of the current economic crisis. Offering a heterodox approach to interpretation it examines the policies implemented before and during the crisis, and the main institutions that shaped the model of advanced economies, particularly in the last two decades.

International Economics : A Heterodox Approach by Hendrik ...

The Routledge Handbook of Heterodox Economics presents a comprehensive overview of the latest work on economic theory and policy from a 'pluralistic' heterodox perspective. Contributions throughout the Handbook explore different theoretical perspectives including: Marxian-radical political economics; Post Keynesian-Sraffian economics; institutionalist-evolutionary economics; feminist ...

The Routledge Handbook of Heterodox Economics: Theorizing ...

The concept of holism underlies all of heterodox economics because, like holism, it embraces models that are systemic, dynamic, and multi-disciplinary. Holism explicitly addresses the complexity of human existence within the interdependent economic, social, and natural systems.
